Module transfer system (MTS)

The aim of providing the MTS is to offer a central module database on a transitional basis and to improve the data quality in the module descriptions. This should not only ensure a complete module illustration, but also an easier handling of the data sets. The data will serve as the foundation of the future SLM system. All modules will be easily available to students and staff via Moses and can be downloaded as PDFs. Module data is managed by the faculties. The SLM team from innoCampus, the various Offices of Academics and Teaching (Referate Studium & Lehre) and Section I B are primarily involved in the implementation.

The web interface of MTS is implemented in

. Here, TU Berlin staff can add, update, and manage modules and their descriptions in the new database. Students have the possibility of viewing the modules approved thus far.Moses ist die Weboberfläche des MTS realisiert. Hier können MitarbeiterInnen der TU Berlin Module und deren Beschreibungen in der neuen Datenbank anlegen, aktualisieren und verwalten. Studierende haben die Möglichkeit sich die bislang freigegebenen Module anzusehen.

Tips & Tricks

The Academic Quarter

Pay attention to starting times!

- Lectures, study groups, tutorials usually start c.t. (cum tempore – with time), which means 15 minutes past the full hour
- **Examinations** usually start s.t. (sine tempore without time), **so be on time**!

Find Your Tribe

It's Dangerous to Go Alone. <u>Go</u> Together!

Ask Questions

- Ask your study partners and fellow students
- Use the ISIS-Forum
- For confidential topics: write to your teaching assistant or the professors office, usually not the professors themselves
- #UrgentIsNotASubjectLine
- · Be polite, there are people at the other end

Office Hours

- Ask your teaching staff how stuff works
- Ask questions and get help with problems
- Make use of them early

- Usually offered by
 - 1. Tutors
 - 2. Teaching assistants
 - 3. Professors

Be Self Aware

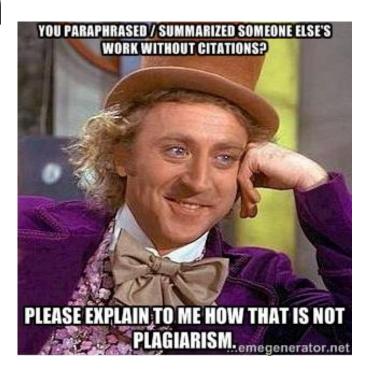

- get rid of unnecessary stress
 - deregister from examinations
 - Difficult/impossible for portfolio examinations
 - replace modules you don't like
- Do I really want to do this course?
- Remember to find something for balance

Compensation for Disadvantages

- Is meant to compensate for obstacles that make it difficult for you to pursue your studies
- Possible examples include
 - chronic illness
 - disabilities
 - children
 - pregnancy
 - taking care of family
 - ...

Plagiarism

- Don't
- You're masters students. We don't have to tell you.
- Or do we?...
 - may lead to termination of enrollment

The Uni-ABC

Welcome to the Uni-ABC!

Here we compiled some important or interesting topics for you to browse and lookup. As the topics food procurement, foliating spaces are extensive, we gave them own sections. If you cannot find a topic here or you want more information on a keyword, have a look at our wiki over at https://wiki.freitagsrunde.org/Hauptseite. The entries are sorted like the entries in the German version, as there are no English names for some of the entries (or the translations are not used very often).

Student Mobility and International Students

Also known as: AAA, Studierendenmobilität und Betreuung internationaler Studierender

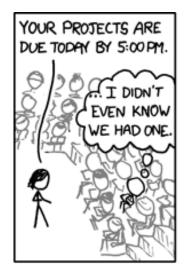

Point of contact for when you want to <u>study</u> abroad, related scholarships and the acknowledgement of study achievements abroad. It's also an infomation center for foreign students. Once a semester, ways to study abroad are presented.
