#tuDown

- TU Berlin got hacked on April 30 2021
- A couple of systems are still down or only up with limited functionality
 - Their status is tracked using a traffic-light-style system: https://www.campusmanagement.tu-berlin.de/menue/dienste/zecm_dienste_ampel/

Be aware, that there may still exist some limitations

Module transfer system (MTS)

The aim of providing the MTS is to offer a central module database on a transitional basis and to improve the data quality in the module descriptions. This should not only ensure a complete module illustration, but also an easier handling of the data sets. The data will serve as the foundation of the future SLM system. All modules will be easily available to students and staff via Moses and can be downloaded as PDFs. Module data is managed by the faculties. The SLM team from innoCampus, the various Offices of Academics and Teaching (Referate Studium & Lehre) and Section I B are primarily involved in the implementation.

The web interface of MTS is implemented in

. Here, TU Berlin staff can add, update, and manage modules and their descriptions in the new database. Students have the possibility of viewing the modules approved thus far.Moses ist die Weboberfläche des MTS realisiert. Hier können MitarbeiterInnen der TU Berlin Module und deren Beschreibungen in der neuen Datenbank anlegen, aktualisieren und verwalten. Studierende haben die Möglichkeit sich die bislang freigegebenen Module anzusehen.

2nd Exam Term

Exam Terms

- 2 per semester, you can choose the term in written exams
- Usually the first 3 weeks and the last 3 weeks of the lecture-free time

Exam Repetition

- 3 attempts, the last one is oral
- Compulsory elective and elective modules can be exchanged
 - You need to submit the corresponding <u>form</u> to the examination office BEFORE registering the replacement exam
- One further attempt, if you take part in a meeting with the Student advisory services
- Three attempts for the thesis (BerlHG)

Free Retries

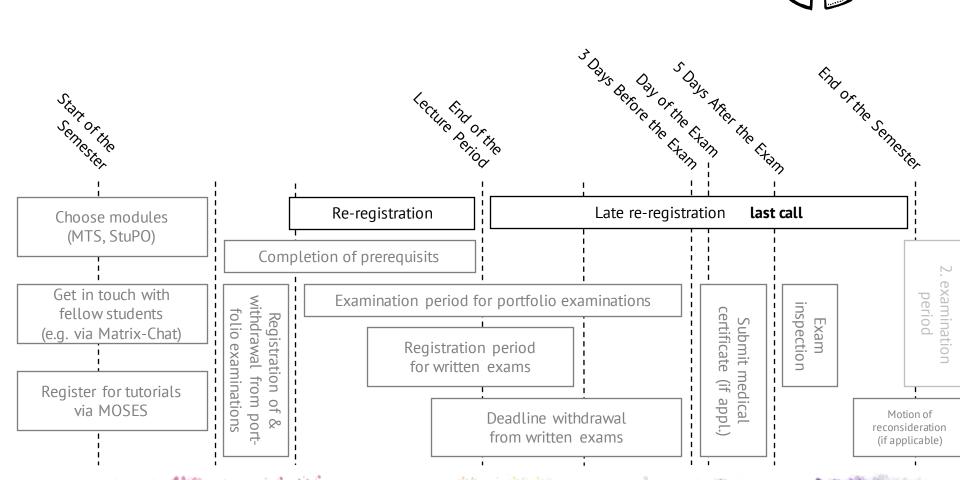

• Every failed attended examination attempt does not count at the moment (until the end of the summer term 2022, presumably)

- Requirements:
 - You must attend
 - You must have failed (i.e. gotten a 5.0)
 - You must not have been caught cheating

Re-Registration

Re-Registration

Tips & Tricks

The Academic Quarter

Pay close attention to starting times!

- Lectures, study groups, tutorials usually start c.t. (cum tempore – with time), which means 15 minutes past the full hour
- **Examinations** usually start s.t. (sine tempore without time), **so be on time**!

Find Your Tribe

It's Dangerous to Go Alone. Go Together!

Keep an eye on the **master students roundtable** to meet others

Find Your Focus

Hopefully by now you have an idea, what you want to focus on....

 The Student Advisory Service can support you in finding the right courses for your specialization.... which brings us to:

Find Your Thesis Topic

- Finding a thesis topic can be difficult.
- Take courses in areas you are considering for a thesis to get to know the lecturers.
- Some lecturers don't like to give topics to students who haven't heard at least their intro courses – if in doubt, ask early.

Ask Questions

- Ask your study partners and fellow students (initial contact can be established via ISIS chat)
- Use the ISIS Forum
- For confidential topics: write to your teaching assistant or the professors office, usually not the professors themselves
- #UrgentIsNotASubjectLine
 - Better: list your subject and deadline
- Be polite

Office Hours

- Ask your teaching staff how stuff works
- Ask questions and get help with problems
- Make use of them early

- Usually offered by
 - Tutors
 - Teaching assistants
 - Professors
 - Advisory Services

Be Self-Aware

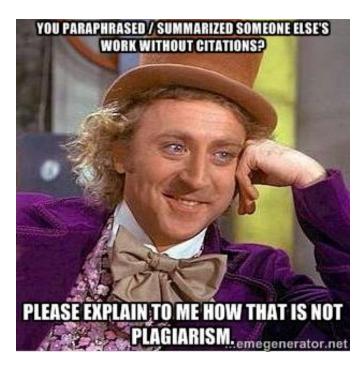

- Minimize unnecessary stress
 - deregister from examinations early
 - Difficult/impossible for portfolio examinations
 - replace modules you don't like
- Do I really want to take this course?
- Study/life balance

Compensation for Disadvantages

- Is meant to compensate for obstacles that make it difficult for you to pursue your studies
- Possible examples include
 - chronic illness
 - disabilities
 - children
 - pregnancy
 - taking care of family
 - ...

Plagiarism

- Copying from unknown sources without citation will only make your life more difficult.
 - Can lead to Exmatriculation!
